# Affordable Gaming Tables and Bespoke Table Design

## 1. Bespoke Tables and Development Work

### 1.1. Summary

Too many times life interrupts those truly magical gaming experiences and causes you to have to pack away that long campaign or move to the sofa to eat your meal when all you want to do is hit a big red pause button while you deal with life.

With Tinkerbot tables simply remove the top slats and set up your favourite game. Each table has integrated light rails, so maybe set the mood as well. Whether you are in the midst of your seventh hour of a rather lengthy campaign, or just want to leave a short game setup to play again later simply refit the top slats and support, turn off the lights and you are ready for that sit-down meal, or homework session.

We here at Tinkerbot tables aim to remove the stress and reduce the significant financial costs of what we see as a vital piece of gaming equipment, plus we care about where your wood comes from. We only use suppliers that are registered with the Forest Stewardship Council (FSC) who ensure the use of environmentally-appropriate forest management practices in the production of wood.

**Can't find the right table to fit your space??** With our bespoke table service, you are able to customise the dimensions to the table to suit your individual needs. We understand that each gaming environment is different and as such tweaks are needed here and there to get it just right to fit that space that you need filling. We use computer aided design tools (CAD) to develop our bespoke solution and produce the drawings that are then used to hand craft each and every part of the table. We start from a standard construction base and philosophy, then extended outwards, upwards, or any direction you need, including various shapes and configurations. This serves to cut out significant costs that are usually associated with custom sizes. Depending on the size and complexity of the table, we may charge a small design surcharge but the price of the table will typically be similar to the nearest size in our range. For example, a hexagonal table that is about the outside dimensions of an Oct 8 would cost about an Oct 8 in price.

## **1.2. How does a custom design process work?**

Simple, give us a rough outline/brief of what you want with approximate critical dimensions and we can do the rest! For example, if you desire a hexagon table then give us the outside dimensions and we will provide drawings for the rest. If the key thing for you is the gaming surface, and one of our standard range just doesn't quite fit then tell us that size, or game your playing and we will provide the rest.

1. Send us your idea, dimensions, specification, detailed drawings (if you happen to have them).
2. We will review, sketch out, price up and get back to you with a proposal.
3. If you agree, then we would ask for a deposit to buy materials and then get building. We would give you an estimate for delivery depending on workshop loads so that you know exactly how long and how much before you commit.

## 2. Table sizes

### 2.1. Hex 6

A 6-8 seater table with just enough room for the likes of a full Firefly (being creative with deck positioning), Arkham Horror or Gloom Haven covering the world map while in a scenario. Table slats that cover the game vault while not in use making it a practical dining table are always included as standard.

#### Standard Hex 6 Table

Perfect for:  
6 Seater, Firefly, Arkham Horror,  
Gloomhaven)

Internal gaming  
area dimensions  
(10cm deep)

1.1 Metres  
(3.6ft)

0.7 Metres  
(2.3ft)

External table  
dimensions

0.7 Metres  
(2.3ft)

1.4 Metre  
(4.6ft)

0.8 Metre  
(2.6ft)

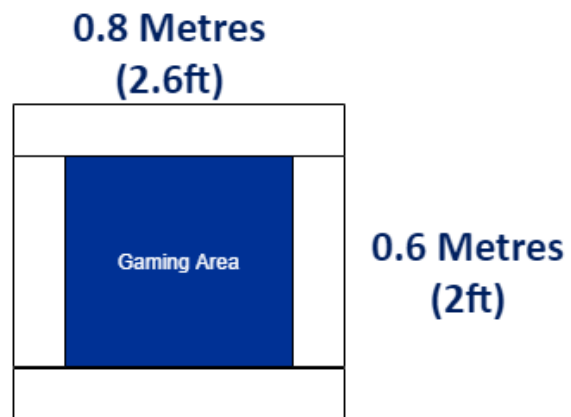

## 2.2. Quad 4

A cheeky 4-seater that will fit a pandemic or pandemic legacy. Combined with personal play areas and some creative deck placement this could take a Gloom Haven scenario, Imperial Assault or a descent. Table slats that cover the game vault while not in use making it a practical dining table are always included as standard.

### Standard Quad 4 Table

Perfect for:  
4 Seater, Pandemic or Pandemic  
Legacy

Internal gaming  
area dimensions

External table  
dimensions

## 2.3. War 91

Designed to meet requirements of a standard X-wing battle area. Approximately a 4-6 seater table. Table slats that cover the game vault while not in use making it a practical dining table are always included as standard.

### Standard War 91 Table

Perfect for:  
4 Seater, Xwing Standard 100 points  
match 3ftx3ft vault

Internal gaming area dimensions  
(10mm deep vault - custom  
depth available on request)

0.92 Metres  
(3ft)

0.92 Metres  
(3ft)

External table dimensions  
(Custom heights available  
on request)

0.7 Metres  
(2.3ft)

1.1 Metre  
(3.6ft)

1.1 Metre  
(3.6ft)

## 2.4. Oct 8

A good sized 8-10 seater table with plenty of room for the likes of a full Firefly, Arkham Horror or comfortable Gloom Haven. Table slats that cover the game vault while not in use making it a practical dining table are always included as standard.

### Standard Oct 8 Table

Perfect for:

8-10 Seater, Firefly, Arkham Horror, Gloomhaven, Twilight Imperium

Internal gaming area dimensions

1.5 Metres  
(5ft)

1 Metres  
(3ft)

External table dimensions

1.8 Metre  
(6ft)

1.2 Metre  
(3.9ft)

0.7 Metres  
(2.3ft)

### 3. Table Finishes

#### 3.1. Wood Stains

Each table is stained with a high-quality pigmented oil stain and finished with a French Polish to protect against stains and give a long-lasting finish.

Spring

Meadow

Viridian

Burnt Sienna

Olive

Cerise

Teddy

Cherry

Red

Wine

Stone

Kingfisher

## 4. Accessories

Tinkerbot Tables have a wide range of accessories that complement each table without breaking the bank account too much. These can be ordered alongside any tables or at a later date to suite you. We will make bespoke accessories to make your gaming experience more enjoyable and please do contact us for any ideas.

### 4.1. Cup holders

These are a cup holder that locks naturally onto the table once the slats are removed. It is strong and robust to give confidence that there is little risk of knocking that drink over. It will hold up to a pint glass or large coffee cup allowing access to the handle.

- **Choose you colour of plastic** – solid (Black, White, Purple, Red, Blue, Green, Yellow, Orange) or clear.
- **Engraving?** Have it personalised with your artwork or names (small surcharge applicable).

## 4.2. Player Board

Keeping control of all those character sheets or cards can be a large burden. At Tinkerbot Games we recognise that the focus should be on enjoying the game and not balancing things on the sides of a table or taking up room that could be used better. Together with the integrated card holder rails of all tables we offer A4 sized player boards providing you with a range of utilities that we are adding to everyday. The example below shows a magnetic connected card holder rail for more space - We are constantly working on updates and new features including dice prisons, rolling towers and many other options that all fit to this customizable personal play area. The dimensions are 21cm x 30cm.

Magnets attach on a card holder to any position, with a dice tray that clips onto the corner.

If you don't need the card rail simply remove and you have a good A4 sized player area and tray.

Customise the Player Board with any images or details to make them perfect for you!

Player Dashboards are available for a wide selection of games to enhance the playing experience.

Get in touch to find your perfect player organiser.

### 4.3. Player Dashboards

We also offer a range of Player Dashboards like that shown for Zombicide below. These allow character sheets to be firmly affixed in position and allow key components and cards to be displayed more easily. Plus, they reduce those awkward knocks and nudges that cause you to lose track of important character information.

They magnetically attach to the Play Boards allowing you to have many different character organisers that are all compatible with each other!

We are constantly adding to our list of character organisers and get in touch to find out more, or ask us to design one for any game you need.

Snap onto any Personal Player Board.

Select from a range of clear and coloured plastics.

Many more games and features added all the time, so if you have a game you need then let us know and we will make it for you!

#### 4.4. RPG Bundle

The RPG bundle is perfect for larger tables as it allows one side to become the DM/GM area. It consists of an additional width ways slat that extends the table surface to give the DM/GM more area to work with. It also contains a screen to hide those important notes or rules from your group.

Photos show Onyx accessories

## 4.5. Table Divider

If you have a large table and need to divide it for smaller games, then the table divider is an excellent way to stop dice and tokens being lost between sides.

#### 4.6. Customised Token Dish

Match to your table colour, or don't – your choice. Add your names, favourite logo, image, motivational dice rolling saying and then enjoy. Available in any colour you chose from the table finishes available or tell us the colour you want, and we will find it.

## 4.7. Card Holders

Maximise gaming space with card holders that fit onto the inside or outside of the table edge to store your cards and decks out of the way but not out of access!

Attaches to inside or outside edge of any table. Available in two sizes - small cards (like gear cards in Arkham Horror, Eldritch Horror or curses etc in Gloomhaven) or larger cards (like dominion, or portals/locations in Eldritch Horror).

## 4.8. Token Trays

Improve storage and access to token with this range of token trays. Effortlessly attaches to inside or outside edge of the table and can be used for anything from dice to tokens. Maximises vault space and accessibility to essential gaming components.

Like the card holders, these Token Trays slide onto the inside or outside of any table giving you that little bit extra storage and freeing up space. Even if it just holds the baggies out of the way while you enjoy the game.

## 4.9. Tablet Holder

If you like to use your tablet to track the game, control any features or just to watch helpful videos then this can click onto the inside of the table opposite you to give a great view of the screen for your group, or click on in front of you so that you can track progress or control your character. Includes a slot to allow a charger to be connected as well as a shelf for additional storage of bits and pieces.

Maximise the space you have for sprawling game boards by holding the tablet out of the way and at a more ergonomic height for your back and neck.

## 5. Payment Terms

Normally the charges payable are 30% as an initial payment before work commences (to enable ordering of materials). We would then expect remainder of the payment to be made once delivery date is agreed.

## 6. Standard Terms and Conditions

All work carried out will be subject to Tinkerbot Standard Terms and Conditions of Sale. These are available on request.

## 7. Additional Information

One fantastic feature of all our tables is that they are compatible with any and all our accessories range! This is something we strive to maintain, so if you're not ready to fit any of them then don't worry, as these could be a fantastic birthday present!

## 8. Example Images

Below are some examples of the finished table.
